NISSAN
TEKTON
TWNTY 3 GP

Features and specifications are subject to change depending on market and grade. Please consult your local Nissan dealership for more information.

The all-new Nissan TEKTON.

TEKTON blends striking SUV design, generous space, intelligent technology and trusted Nissan engineering together in a way that refuses to follow the formula.

More where It matters.

More room to enjoy. More thoughtful technology to use. More of the features that make every day driving better. For those who choose with conviction and won't settle for convention. Crafted to stand out, and in a league of its own.

The all-new Nissan TEKTON. Dare Beyond.

Designed for greater awareness.

TEKTON integrates smart driver assistance into the moments where it matters most. From helping you navigate tight spaces to giving you a clearer view of what's around you, the technology is designed to be useful and easy to engage with - adding confidence without adding complexity.

3D Intelligent Around View Monitor.

From the 3D-Around View Monitor to the 360° virtual birds-eye view, giving you the confidence to park like a pro, every time.

Front and rear parking distance sensors and Moving Object Detection alert the driver with audio and visual warnings if movement around your vehicle is detected.

Rear camera: See what's right behind you.

Right side camera: Flick the switch to see the kerb.

All-around view: Get a virtual 360° birds' eye view as you manoeuvre.

Front camera: Get a combined front and overhead view for perfect parking.

Advanced Driver Assistance.

TEKTON's intelligent ADAS systems are constantly sensing and responding to what's happening around you.

Working in the background to add awareness and reassurance, they help create a driving experience that is seamless, safer and more assured.

Features and specifications are subject to change depending on market and grade. Please consult your local Nissan dealership for more information.

LDW (Lane Departure Warning)
LDW proactively detects if the vehicle unintentionally drifts out of its lane without an active turn signal. The system alerts the driver with an audible chime, a blinking indicator light, and steering wheel vibrations.

LKA (Lane Keep Assist)
Nissan's LKA technology uses a forward-facing camera to track road lines. It warns you if you drift and gently steers your car back to the center.

HSA (Hill Start Assist)
HSA is an automatic safety feature that keeps your car from rolling backward when you stop on a steep slope. It holds the brake pressure for up to two seconds while you move your foot from the brake pedal to the accelerator pedal.

FCW (Forward Collision Warning)
Using a front-mounted sensor, FCW detects sudden deceleration or movements in the same lane ahead, to give you extra time to react to hidden potential hazards.

AEB (Automatic Emergency Braking)
An AEB warning alerts you when a front-end collision is likely, giving you a visual and audible cue, and will even apply brake pressure for you, if you do not react.

ACC (Adaptive Cruise Control with Stop & Go)
ACC maintains your set cruising speed while automatically accelerating or braking to keep a safe, driver-selected distance from the vehicle directly ahead.

BSW (Blind Spot Warning)
BSw is a safety feature that uses rear bumper radar sensors to detect vehicles hiding in your side blind spots and alerts you with a light or a chime.

Nissan's commitment to quality: To provide all customers with a consistently high level of quality, Nissan applies the same standards worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: First, the expectation of a smooth driving experience with complete peace of mind. Second, the intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. Third, the level of attentiveness and service during the sales process, and long after the sale is concluded.

Legal notice: Every effort has been made to ensure that the contents of this brochure is correct at the time of going to print (September 2026). This brochure may be produced featuring prototype or accessorised vehicles exhibited at motorshows and in accordance with the company's policy of continuously improving its products. Nissan South Africa reserves the right to change the specifications and the vehicles described and shown in this brochure at any time.
